#### Significant Events

No significant events for this reporting period

#### Field Operations

#### DuPont Methyl Mercaptan, Laporte, TX

- There continues to be elevated levels of methyl mercaptan in the 3<sup>rd</sup> floor drain. DuPont added more bio enzyme to the drain and leave the material at least one day to ensure the product has enough time to work. EPA/START/DuPont will re-enter on Sunday morning to reevaluate methyl mercaptan levels .

9541270

- This weekend, EPA expects to sample the white power material, pH 11, found on third floor.
- CSB does not have any interviews planned for Friday or Saturday but return to the facility on Sunday when EPA/START does entry.
